**GUIDE TO INTERVIEWER:** The following questions aim to clarify the individual’s level of functioning in relation to his or her own priorities and those of the cultural reference group. The interview begins with a general question about everyday activities that are important for the individual. Questions follow about domains important for positive health (social relations, work/school, economic viability, and resilience). Questions should be kept relatively broad and open to elicit the individual’s own priorities and perspective. For a more detailed evaluation of specific domains of functioning, a standard instrument such as the WHO-DAS II may be used together with this interview.
